Legionnaires Observe Anniversary of Famous Battle of Vimy Ridge --Main Address by Sidney C. Short

Dinner Served by Ladies' Auxiliary
and Program of Addresses and
Songs Provide Entertainment

On Easter Sunday, April 9, 1917, the Canadian Corps fought what was probably its most memorable battle in the Great War, in capturing Vimy Ridge, driving the Germans from this point of vantage from which they had long harassed the British troops.

It is on Vimy Ridge that the splendid memorial to the Canadians who fell in the war was dedicated in 1935, and it is appropriate that every year the anniversary of the famous battle should be observed by ex-service men.

Consequently on Saturday evening the local branch of the Canadian Legion, under the presidency of Bill Martland and with the assistance of Secretary Tom Rose, held their annual

Vimy dinner. In this they were ably reinforced by the Ladies' Auxiliary, to whom tribute must be paid for the fine dinner served.

The main address was given by Comrade Sidney C. Short, who dealt at some length with the Battle of Vimy and the record of the Canadian Corps and the work of the Canadian Legion since the close of the war. A. Pruett gave a short address, as also did Harry Garner, while Ernie Beart proposed the toast to "The Ladies". H. T. Halliwell extended a vote of thanks to all who assisted in the program. Mrs. H. Turner replied to the toast of "The Ladies", giving a short address on the work of the Auxiliary.

Those contributing to the musical portion of the program were Archie McCulloch, A. Pruett, Howard Davies, Mrs. Martland, Ernie Hill, Mrs. W. Hopkins, Robert Lloyd, A. social and dance after the dinner tables were cleared away continued till almost midnight. Mrs. W. Jackson kindly helping at the piano.

A very jolly evening was spent and the Legion executive is to be commended for arranging this annual observance of the famous Battle of Vimy Ridge.

GARNER'S GREENHOUSE SHOWS PROGRESS

Harry Garner is a glutton for work. During the past year he has built a greenhouse, connected it with the water line, dug a basement and installed a heating plant on his property at the east side of town adjoining Crawfordtown. In addition he has a good start on nursery stock of all kinds, including a fine variety of potted plants. His sale of cut flowers is steadily increasing and he plans having a sales room at his house on Main street. The land on which his greenhouse is situated is suitable for outdoor stock growing and he is already preparing the soil.

Jaffray's New Community Hall

400 Guests Attend Opening—Coleman Man Wins Hand-Worked Bedspread at Draw

Jaffray's new hall was packed to capacity last Saturday at the grand opening of this community centre, built entirely by labor given by public-spirited citizens of Jaffray, Sand Creek, Galloway and district.

Over 75 visiting cars brought people from Lethbridge, Coleman and other Alberta points, while all towns in B.C. from Michel-Natal to Wyndel, were represented. Dick Vernon's Musical Dudes dance orchestra and the Wardner Orchestra provided the music.

The dance floor measures 60 by 30 feet, and there is a spacious stage complete with footlights for dramatics. Max Androschak of Coleman won the beautiful bedspread valued at \$15. Gross receipts from the dance were \$203.55, of which \$173.25 was collected at the door, and \$30.30 realized from the sale of raffle tickets.

The citizens of Jaffray extend a cordial invitation to everyone to patronize the dance, the next being on Saturday, April 22.

RESULT OF VOTE ON THURSDAY LAST BY COMPANY EMPLOYEES

The pithed ballot of Coleman miners and all employees of the International and McGillivray Coal Companies last Thursday, April 6, on "Are you in favor of retaining Dr. Rose?" resulted as follows: 550 Yes; 227 No; 5 spoiled ballots.

The decision to take a vote was made at a general meeting of the miners held in the Community Hall on April 4, subsequent to consideration of the matter by the Hospital Board, who decided to submit it to a vote.

WELCOME NOTE

The Journal is pleased to acknowledge a friendly message from Mr. and Mrs. Montague Wilson of Arrow Lakes, B.C., with their renewal subscription for another year.

Prospects Bright for Steady Work in Local Mines

International and McGillivray mines are working fairly steadily, four and five days a week. During 1938 they worked 260 days, which, among the mines of Alberta and British Columbia, is considered good under existing conditions.

The working agreement ratified by the miners late in March went into effect on April 1 for a period of two years, and with some minor changes is similar to the agreement in force during the past seven years, to which the signatories are the miners' committees of both mines and the executive management of the companies.

With steady shipments of coke to Consolidated Smelters at Trail and of coal for C.P.R. locomotives on western lines, it seems likely that fairly steady work will continue.

PINE EVENT IN MUSICAL AND RELIGIOUS LIFE OF TOWN

"From Olivet to Calvary" Splendidly
Given by St. Paul's Church
Choir

The Good Friday and Easter services at the United Church were a most satisfying series of services for all who took part. Good Friday evening the church was crowded to capacity and people were turned away. The choir made their first major effort to this crowded congregation and both as an act of worship and a musical success it was a fitting observance of a most solemn day. The smooth, spontaneous work of the choir as a chorus was a delight to listen to. Those taking part as soloists and in the quartette were equally pleasing.

The subject of the theme "From Olivet to Calvary" was never for a moment lost sight of. It was an event in both the religious and musical life of the town, and gives Coleman ground to still claim some stake in the musical life of the West towns.

The choir and their leader, Dr. Rose, have every reason to feel that the many strenuous hours spent in rehearsing were not in vain. The services of Miss Lorraine Rippon as organist all through the period of preparation and her efficient accompaniment on Friday evening leave all very much in her debt. The soloists were James Cousins, Lewis Jones, J. Emmerson, Mrs. Rose, R. Johnson, Unie Johnson and Dr. Rose.

Easter Sunday was also a satisfying day. Every seat was taken for the morning service and a larger number of communicants than for years remained for the Sacrament. The communion table and pulpit were simply but tastefully arranged with daffodils and lilies. In the evening the choir repeated the second half of the cantata, giving even greater pleasure than on Friday evening. In the absence of Miss Rippon, Mr. Emmerson was back at his old post at the organ and Mr. R. Johnson took his solos. Altogether the Easter season showed that the United Church still has an important place in the life of Coleman.—Contributed.

HONORED ON RETIREMENT FROM C.P.R.

Completing 41 years' service with the C.P.R., Alderman A. J. Balment of Cranbrook, conductor between Nelson and Crows Nest, was made a presentation by his friends last week.

Mr. Balment returned to the municipal lists as an alderman in the council ever since. He was only recently elected for another two-year term.

In February, 1898, Mr. Balment came west to Macleod during construction days of the Crows Nest Pass railway and took a job driving a four-horse team freighting between Pincher Creek and Bullhead, now Crows Nest. Later he got on with the B. and N. department and followed work all the way through from Lethbridge to Midway. Then he spent some three years as a section foreman. Later he came back to Cranbrook and began his train service career.

Clean-up, Paint-up!

Attention is directed to the special paint advertisements in this issue of the following firms: Pattinson Hardware, Coleman Hardware and Excel Builders' Supply Co. Now is the time to save money on paint.

MANY ATTEND EASTER SERVICES AT ST. ALBAN'S

Most important in the life of the Christian church is the Easter festival, commemorating the Resurrection, consequently Easter services are always attended by large numbers.

Both at St. Luke's, Blairmore, and St. Alban's, most church members attended the Easter communion services at which Rev. John R. Hague officiated. The special Easter offering was a feature of the services, meeting with a liberal response. The minister's sermon dealt with the resurrection of Christ and the devotion of Mary and the disciples.

On Good Friday service was held from 2 to 3 p.m. in St. Alban's. Flowers were placed on the altar of St. Alban's church on Easter Sunday by several members of the congregation, in memory of loved ones who have passed on.

EASTER AT THE CATHOLIC CHURCH

There were so many out for the Easter services on Sunday morning at Holy Ghost Church that many were unable to gain admittance. The choir sang special music which added to the beauty and solemnity of the services.

SALVATION ARMY HELD SPECIAL SERVICES

Special Easter services were held throughout the week end by the Salvation Army, both at Hillcrest and Coleman. At Hillcrest the Young People's singing company rendered Easter songs in conjunction with a lantern service, at which Major and Mrs. J. Acton were present. A capacity crowd was present.

On Good Friday evening a similar service was conducted by Captain and Mrs. Hewitt in the Coleman Salvation Army hall.

Easter Sunday night was fittingly observed by a full attendance, with special congregational singing, and an Easter message based on the words of Job, "I know that my Redeemer liveth!"

J. L. Lonsbury's Condition Unchanged

Leaving home shortly after 6 o'clock on Tuesday morning for work at McGillivray mine, Mr. J. L. Lonsbury was seized with a stroke and was found on the mine's path by fellow workers, in a state of collapse. He was hurriedly moved to hospital and throughout Tuesday and Wednesday remained unconscious, ice packs being applied continually to his head.

P. Rinaldi, operator of the coke loader at International Coal Co., was admitted to hospital on Tuesday evening, having taken suddenly ill.

Reports at the hospital this morning stated that the condition of both patients is unchanged.

BE KIND TO ANIMALS WEEK —APRIL 17-23

During these years when brutal war is threatening the very existence of humanity, and hatred, suspicion, fear are spreading like a plague among the nations, is the great cause of animal welfare going to suffer with every other good cause that depends upon justice and good will? Men and animals live together, prosper together, suffer together.

"Mickey" Brennan Gets Into The Limelight During Thrilling European Hockey Tour

Smoking big cigars is not a habit with this gent but a Scottish news photographer insisted that he pose like this.
—Engraving by Gushul, Blairmore.

Returned with World-Champion
Smoke Eaters Last Friday
After Nearly Five Months' Overseas

"Trail's fastest man is veteran-smoking Mickey Brennan." Such is the lead to a story on the Smoke Eaters' appearance at Dundee and Falkirk, Scotland.

"Sixty minutes power play ice hockey. Can you imagine it? Imagine it or not, ice hockey fans will see it when Trail Smoke-Eaters come to town. They are the world's finest exponents of storming hockey. They attack five men at a time, the defence raging in alongside the forwards."

"But are they never caught up ice? you ask. Very, very seldom. These Smoke-Eaters are so fast that they usually manage to skate back and catch an opponent who may have got the jump. Amazing thing about the Trail masters is that their fastest man is the veteran of the team, Mickey Brennan. He is 32, an age when most hockey players are through, or perhaps managing to hold down a place in defence. Not only is Brennan the speed merchant, he is the brains of

the team as well. Joe Collins tells me that Brennan was simply marvellous in Switzerland."

"Other Smoke-Eaters who should be specially watched at Dundee and Falkirk are Snowden, a tough defence man, who hits so hard that they stay hit; Joe Benoit and Ab Cronie, brilliant attackers."

Views on Germany

On their European tour Smoke-Eaters played 72 games, scored 376 goals and averaged a game every two days. Countries played in were Scotland, England, Holland, Belgium, France, Germany, Czechoslovakia and Switzerland.

Thirteen players and the team manager made the tour. Important stadiums included Wembley, Earls Court, Harringay, in London; Brighton, on the south coast of England, famous holiday resort; Glasgow, Ayr, Kirkcaldy, Dundee, and Falkirk, in Scotland; the famous Sportplatz, in Berlin, and other famous arenas.

Speaking of Germany, Mickey states that the standard of living there is much below that of Canada, and the butter is very inferior, while food generally is of a much inferior standard, and is not at all plentiful. Censorship keeps the people ill-informed of world events, and during the crisis of last year and more recently, the greater part of the populace had no idea how near Europe was to engaging in another war.

London he found very interesting, and he spent some time there visiting many points of interest, including the famous old Tower of London, where he "snatched" a photograph of the Crown Jewels, though this is usually prohibited.

He looks well after his trip, and left on Monday for Trail, after spending the week-end visiting his mother here and renewing acquaintance with many friends of his younger playing days in Coleman.

HOMING CLUBS MET LAST WEEK

A meeting of the Pigeon Federation, comprising club from Cranbrook, Coleman, Lethbridge, Calgary and Drumheller, was held here last week. Delegates were present from Cranbrook, Lethbridge and Calgary. A full report will be carried in next week's issue.

Cost Of Government

Probably very few people who join in the popular clamour for government expenditure for relief, for public and social services, for subsidies and for numerous other concessions, too often with the idea of benefiting themselves beyond actual needs or to gain something for their community realize the expense they are adding upon themselves and upon their children.

If they did, it is probable that many of the demands which are made upon the federal, provincial and municipal governments would be considerably curtailed and some of them would not be made at all. The people themselves would be more vigilant in their efforts to prevent relief racketeering such as was recently revealed in criminal court proceedings in one of the municipalities in Saskatchewan and the public conscience would result in curtailment of some of the demands which are constantly being made for services, favors and concessions which the country is unable to afford at the present time.

Governments are not altogether to blame if they yield to constant and enormous pressure which is constantly being brought to bear upon them for unnecessary expenditures or for services for which the means are not forthcoming without pledging the country, the province or the municipality to indebtedness beyond ability to repay.

It is the people themselves who thoughtlessly make demands without counting the cost and who regard the governments as a widow's cruise of oil who are culpable, and until they fully realize what the cost of government is to them as individuals, the avalanche of demands for more services of one kind and another is not likely to abate.

Unappreciated Costs

One of the difficulties of bringing home to the public consciousness the burden which the people must carry as a result of these demands for multiple government and increasing services is the fact that much of the taxation imposed to pay for it is the indirect form, what might appropriately be termed hidden taxes.

The average man or woman who goes into a store to spend a dime or a dollar is not conscious, or at the best only vaguely aware, of the fact that a percentage of that dime or that dollar is going towards the cost of government and government services. A portion of the dime or the dollar goes to the federal government, sometimes another slice of it goes to the provincial government and in some cases all three governments take a share of that dime or that dollar.

Even those who have a dim conception that when they are purchasing commodities and services they are contributing towards the cost of one or more governments have not the faintest idea of what proportion of the money they are spending goes for that purpose. If they did, it is more than probable that the governments would not be subjected to this continual bombardment for more and more expenditure.

As already intimated it is difficult for people to appreciate and realize the cost of government and government services largely for the reasons mentioned, but one authority, Capt. W. C. C. Innes, managing director of the Taxpayers' association of Canada, in a recent article in the Labour Review declared that "our contributions by indirect taxation are about two-thirds of the total taxes collected."

The same author states that the public debt is now approximately eight billion dollars of which \$900,000,000 has been spent on relief in various forms with prospects that it will reach a total of one billion dollars this summer. The annual interest charge on this debt, he states is \$20,000,000 which divided equally among the eleven million people inhabiting the country means an average yearly charge of 28¢ per person. Very properly, of course, the burden is not equally divided, for those with larger incomes contribute a larger share than those with smaller incomes on the basis of one of the fundamental principles of taxation, "ability to pay".

WILLIAM AN ASSET.

Of the many problems facing the country and which have been responsible for building up a heavy debt, Capt. Innes rightly regards the unemployment problem as the most serious, not only because of the large sums which have been spent on direct relief without any return for the expenditure in the form of assets, but because of the effect of this system of aid upon the morale of the recipients.

Reference has already been made to the beneficial effect of direct relief as exemplified in recent court actions and there is no question but that much of the cause for complaint against this type of aid would disappear if a policy of requiring some return in the form of work for the money spent by all the governments concerned in the administration of relief were adopted.

As Capt. Innes appropriately comments in the concluding paragraph of his article: "There is a growing tendency to rely on the governments for this, that and the other thing, not realizing that we, the people, are the government, and in the long run we pay in full for our unthinking selfishness and folly."

Helped By Office Staff

Man Able To Hold Job Because Colleagues Were Kind

Here is a story to match the one we had a while ago about members of a Toronto office staff clubbing together to pay for plastic surgery to the scarred face of a fellow-employee. A young chap in another local office became deaf through measles caused by diving. The handicap was affecting his work and blighting his life generally. Quietly his colleagues chipped in and bought a hearing instrument for him—one of those wonderful, inconspicuous things that work by bone conduction of sound, or something. He could never have afforded it himself, since he is the main support of his family. The thoughtfulness of his workday associates has made things worth while for him again, and gone is the haunting fear that deafness would handicap his future.—Toronto Telegram.

Napoleon Was Honored

Napoleon in 1802 was made an honorary member of the American Academy of the Arts soon after his Egyptian campaign led to finding the Rosetta Stone, key to reading Egypt's hieroglyphics.

From birth to maturity, the human body increases in height three times, the upper limbs four times, and the lower limbs five times.

For instant ease from chest colds, ordinary sore throats.

MINARD'S LINIMENT

Map Changes

British Map Makers Losing A Lot Of Money These Days

Adolf Hitler and other European "map changers" are costing Britain's five big map making concerns a total of about \$52,000 a month, it was said recently.

The five concerns alone have destroyed or re-printed more than 1,000,000 maps in the last four years. Some of the companies were just issuing new maps of Asia and Ethiopia when the Czech crisis developed. They stopped the presses in order to get the European changes also.

A one year supply is usually kept in stock. The Czech changes necessitated alterations on more than 250,000 maps, including the names of many towns that became German. The only consolation for the companies is that the public now is more "map conscious" and sales are up.

Visitors On Lonely Isle

Passengers From Liner Left Gifts At Tristan Da Cunha

Women visitors were landed recently at Tristan da Cunha, perhaps for the first time in history. Believed to be the world's loneliest spot was visited recently by passengers of a liner and gifts left with the 130 inhabitants. Subsisting on meagre produce of a barren, rocky island, the dwellers refuse to leave and are not bothered about a radio set that never works.

"Today's mince pies are descendants of England's popular 'mutton pie' of 1586, 'minched pies' of Queen Elizabeth's time, and the 'shred pies' of 1700.

It is said that SOS broadcasts for missing relatives of sick persons are successful in 54 per cent. of the cases.

THAT REMINDS ME—THERE'S MORE VALUE FOR THE MONEY IN OGDEN'S

"Roll-your-owners" with a yen for real value bank on OGDEN'S for real money's worth. They know that OGDEN'S gives the highest percentage of smoking pleasure, that it pays sure dividends in cooler, smoother, sweeter smoking.

No Commercial Value

But Islands Taken Over By Japan Are Good Air Bases

The government at Tokyo has notified France that Japan was assuming jurisdiction over the Spratly islands in the China sea—strategic coral group midway between French Indo-China and British North Borneo. France occupied the islands in 1933. The group of seven islands have an area of 247 acres but are without great commercial value. However they surround lagoons which could afford harbor facilities for seaplanes, submarines and small naval craft.

Occupation of the islands by France in 1933 was the first claim to ownership since their discovery in 1867.

SELECTED RECIPES

BUTTER CAKE

2 cups sifted cake flour
2 teaspoons double-acting baking powder
1/2 teaspoon salt
1/2 cup butter or other shortening
1 cup sugar
1 egg, unbeaten
3/4 cup milk
1 teaspoon vanilla
Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg and beat very thoroughly. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased 8-inch layer pans in moderate oven (375 degrees F.) 25 minutes, or until done.

BANANA GINGER CREAM CAKE

Use recipe for Butter Cake. Bake in breaded pan, 8x8x2 inches, in moderate oven (350 degrees F.) 30 minutes, or until done. Split cake in half to make two layers. For filling, whip 1 cup cream and fold in 2 table spoons chopped candied ginger. Spread bottom layer of cake with about half of whipped cream; cover with banana slices. Adjust top layer, spread with remaining cream, and garnish with border of banana slices. Takes two to three bananas.

JELLY TIER CAKES

Use recipe for Butter Cake. Bake in greased cup-cake pans in moderate oven (375 degrees F.) 20 minutes, or until done. Cut each cake crosswise, to make three layers. Beat 1 cup tart jelly with fork until of right consistency to spread. Spread between layers and on top of cakes. Whip 1 cup cream and spread on sides of cakes. Makes 2 dozen cakes.

Salvador Dalí, prominent surrealist painter, claims that it is enough to create paintings without being asked to interpret them. Besides, a true surrealist should not concern himself with such a minor matter as meaning.

A new magnet about half the size of a man's wedding ring, which picks up a five-pound fatiron, was recently announced. This new lodestone is the most powerful permanent one in the world.

Is Your Back Sore?

If your back is sore and you must get up several times at night, you will find that Dr. Pierce's Aches and Pains Tablets very beneficial. Mrs. Emily Wright, 478 Henry St., Woodstock, Ont., says: "My kidneys called me up several times at night. Rheumatic pains developed through my body. I could scarcely rise in the morning and could hardly turn in bed. I was so stiff and sore. I took Dr. Pierce's Aches and Pains Tablets and I was completely relieved of every ache and pain as that I felt like a new man. I had no more such trouble since." Dr. Pierce's Aches and Pains Tablets at your drug store.

The Naval Race

United States To Build World's Largest Battleships

The President has exercised the right given to him by the Naval Expansion Act of 1938 and has given the navy authority to proceed with the construction of two 45,000-ton battleships.

Behind the debate over the Naval Expansion Act lay an Italian newspaper, an explorer took a field-radio on an expedition to the jungles of the Orinoco River. The white men almost invariably demanded jazz; the Indians, who had never heard of the jungles, who had never heard any white man's music, went into raptures over grand opera and symphony concerts. And when Kentucky mountaineers travel 20 to 30 miles by wagon and by mule-back just to hear a program at a listening broadcast station, they show a curious disdain for jazz. They are instantly delighted by the better music and the symphonic programs, but hold their ears when the noise of the Harlem bandmen is turned on. Their natural taste has never been perverted.

That story, printed in the Fall of 1937, has not been confirmed from Japanese sources, but how successful the Japanese are in guarding the details of their naval building program may be judged from the following: In a recent compilation of information relating to the navies of the principal powers, prepared by the British First Lord of the Admiralty, under Japan, battleships, building and projected, is found the terse entry, "Not Known".

Presumably the President and his naval advisers have discovered more evidence than the Italian newspaper article of 1937 affords that Japan or some other Power is building battleships larger than 35,000 tons.

What the 45,000-ton battleship means to national defence the layman perhaps is not qualified to say, though he may be inclined to think that it approaches, if it does not touch, the policy of putting all your eggs in one basket. Since the cost of naval construction increases disproportionately to the increase of tonnage, battleships of 45,000 tons may be expected to cost in excess of \$100,000,000 apiece.

So far as available information goes, the two battleships authorized by the President would be the world's largest, exceeding by almost 3,000 tons the British battle cruiser Hood and by 10,000 tons the battleships which the French and British have under construction.—New York Sun.

Natural Gas Dynamite

New Powerful High Explosive Is Announced By American Chemical Society

Natural gas dynamite, a new, cheap, powerful high explosive, was announced by the American Chemical Society.

The discovery means, it was stated, limitless quantities of high explosives can be made from air, natural gas and steam alone.

A new chemical synthesis, discovered at Purdue University, extracts from natural gas two new explosives, each as destructive as nitroglycerine, the high of all detonating explosives.

The synthesis was reported by Professor Henry E. Hase, head of the chemistry department, Purdue University.

One of the new destroyers is made from methane, common "fire-damp" or marsh gas, and abundant in natural gas. The other is from ethane, a colorless, odorless gas also found in natural gas.

Each condenses to a solid when treated with formaldehyde. Nitrogen is then added. This makes a mixture which can substitute for nitroglycerine.

Germany Buys Cotton

Takes Entire Crp From Nicaragua On Barter Basis

Germany has purchased on a barter basis the entire cotton crop of Nicaragua and also large quantities of coffee, cottonseed oil, rubber, hides, deerskins and cabinet woods of all classes. Large German tramp ships are now loading at Corinto. Nicaragua will receive in return barbed wire, nails, Diesel trucks, automobiles, hardware and pharmaceutical products. Producers would prefer to sell for cash, but other countries cannot purchase all Nicaragua's exportable products.

Age Limit Raised

The London Daily Mail says men are not too old at 40 in the Navy. The Admiralty has decided, as a temporary measure, that candidates for the warrant rank of Gunner (T) torpedo launch shall be eligible for promotion up to the age of 40 instead of 35 as now. Reason: A shortage of petty officers who wish to become warrant officers.

Must Expect A Prisoner

The London Times says Sark Parliament, the smallest in the world, has decided to repair the roof of its prison, which has housed only three prisoners in a hundred years. Once a servant girl being shut in the little cell for stealing was nervous at being left alone, so the door was left wide open that she might be cheered up by seeing the passers-by.

The Zoological Survey of India reports that snails—commonly kept starved—can live on reserves of food in their tissues for about four months.

Not Normal Music

Jazz Result Of Cultivated Musical Depravity States Authority

There has somehow been circulated the idea that jazz is the normal music of the common people. On the contrary, it is highly artificial, the result of a cultivated musical depravity, says Dr. James Francis Cook, in the Etude. A few years ago, an explorer took a field-radio on an expedition to the jungles of the Orinoco River. The white men almost invariably demanded jazz; the Indians, who had never heard of the jungles, who had never heard any white man's music, went into raptures over grand opera and symphony concerts. And when Kentucky mountaineers travel 20 to 30 miles by wagon and by mule-back just to hear a program at a listening broadcast station, they show a curious disdain for jazz. They are instantly delighted by the better music and the symphonic programs, but hold their ears when the noise of the Harlem bandmen is turned on. Their natural taste has never been perverted.

Lag In Research

Is Hampered By The Lack Of Workshop Accommodation

Scientific research, in Canada is hampered by lack of workshop accommodation and scarcity of skilled mechanical assistants at many of the country's universities, Dr. Charles D. Ellis, head of the University of London's department of physics, believes.

Dr. Ellis is surveying Canadian research centres at the invitation of the Conference of Canadian Universities and with the support of the Carnegie Foundation.

The house of Rothschild was the first money-lending organization to operate on an extensive scale. Founded in Frankfurt-on-the-Main, it had subsequent branches in Vienna, Paris, London and Naples.

"GEE, MOM... IT'S...IT'S SWELL!"

Would your boy like a room like this? You bet he would. With GYPROC it is easy to convert old rooms and unused space into beautiful rooms like the one shown above. GYPROC is the ideal material for walls and ceilings. Here's why...

- FIREPROOF—therefore SAFE.
- PERMANENT AND DURABLE—therefore ECONOMICAL.
- WILL NOT CRACK, WARP, SHRINK OR SWELL.
- INVISIBLE JOINTS—No ugly seams or unnecessary panel strips.
- EASY TO CLEAN—SMOOTH, DUST-FREE SURFACES.
- TAKES ANY TYPE DECORATION—NO MONOTONY.

GYPROC is available in every city, town and village in Canada. See your local Dealer in Lumber and Builders' Supplies, or mail the coupon below for free booklet.

Be sure you get genuine GYPROC—identify it by the Green Stripe on the edge of every board. Accept no substitute.

GYPROC

FIRE PROOF WALL BOARD

Fate Of Britain Is Threatened By The Rome-Berlin Axis

London.—Great Britain now understands its own fate is threatened by the Rome-Berlin axis. The Daily Telegraph (Conservative) said Monday.

"The ministers can be under no misapprehension as to the depth to which public opinion in this country has been stirred," the editorial declared.

"Those who have been generally determined to put the most favorable construction on acts which were obviously most exceptionable are now left with no room for any comforting illusions."

"It is not the smart of grievances but the sheer lust of aggression which actuates the totalitarian powers. . . It now becomes as clear as daylight that all the aggressive moves are part of a carefully planned design for building up an irresistible combination in the international chessboard."

"On its success or failure may depend not only the future of Europe and of democracy, but of the British Empire."

"The ministers can confidently rely on full support of the nation in whatever action they may deem necessary to take to vindicate the claim of Europe to live in peace and security." The Daily Express (independent) said:

"In Britain the pressing necessity is preparation for war, for by such preparations we may find peace. It is only by being strong whenever the threat comes that we can hope to give guarantees of peace to our people, and no nation in the world is in a better position to make herself strong in arms than Britain."

"Only in strength can we guarantee peace to the empire and security to its people, and if the day comes when we must fight, then we shall deploy all our strength, mobilize all our husbanded resources and develop all our striking power so that Britain may survive."

The Daily Herald (Labor), said: "At last the democracies are making their policy consistent with what is required by the dangers in which they stand. But a realistic appreciation of the dangers is not enough. There must be speed, and still more speed, in meeting them."

"Therefore, as Britain acted in eastern Europe with the Anglo-Polish agreement, so she must now act in the Balkans, in co-operation with all willing nations."

"But in the name of peace let that

co-operation be broadly based. With France we must go hand in hand. Without France no policy can be complete. Defence pacts with individual nations are stop-gaps. It is a full system of collective security alone that guarantees peace."

Satisfaction of Bulgaria's territorial claims on Roumania is imperative for formation of a "solid block of peace-loving countries," the diplomatic correspondent of The Sunday Times (independent) said.

He expressed the opinion Great Britain would not denounce the Anglo-Italian accord because of the invasion of Albania.

"For obvious reasons," the writer said, "Britain does not wish to drive Italy further into the arms of Germany, particularly as Britain and Italy have a common interest in preventing German expansion into Yugoslavia."

"A more urgent matter is the maintenance of Greek and Turkish independence. Both these countries have been gravely perturbed by Italian occupation and also by the concentration of Italian troops at Rhodes and other Dodecanese islands. Responsible quarters in London are of the opinion that any attack upon Greece would bring Britain to her assistance."

"It has now become all the more imperative that something should be done to satisfy Bulgaria's territorial claims so that a solid block of peace-loving countries may be formed. Bulgaria is pressing her claims to territorial concessions from Roumania in Dobruja. If these were categorically rejected, then she might be tempted to seek Italian support for an outlet to the Aegean through Greece."

Joins Imperial Airways
Winnipeg.—Capt. Bruce Middleton, one of the original pilots of Trans-Canada Airlines, has resigned his position with T.C.A. and will leave the Canadian service at the end of the month to proceed to England where he has accepted a position with Imperial Airways.

Port Of Churchill
Ottawa.—Development of the Port of Churchill since 1929 has cost the government \$9,565,732, according to a return tabled in the House of Commons by Hon. C. D. Howe, transport minister. Revenues from the port in the same period totalled \$344,586.

Opposition Expressed By Graham Towers To Policy Of Inflation

Ottawa.—Issue of currency to finance government expenditures has been a "very unfortunate result" in other countries, F. Graham Towers, governor of the Bank of Canada, said at a sitting of the parliamentary committee on banking and commerce. "There is no doubt, of course," said Mr. Towers, "that it is possible to issue currency to finance government expenditure and that it is within the powers of parliament to provide the necessary legal authority. However, I believe that this proposal has been made because its advocates consider it to be preferable to other methods of financing—not simply because it may be possible or legal."

"First of all, I think that I am correct in saying that those who give consideration to this form of procedure do not wish it, if adopted, to result in inflation. No doubt they fully realize the disrupting influence of inflation and the social injustices and other hardships which it causes. A great number of Canadian people would—if they understood the situation—violently object to measures likely to produce such unfortunate results. For example, there is no reason to believe that the reaction of organized labor in Canada would be any different than in the United Kingdom and United States where labor leaders have declared vigorously against inflation."

Advocates of such a method of financing public expenditures doubtless believed inflation could be prevented and that it would be a cheaper method than taxation or borrowing. The proposal was "in essence a form of discriminatory public taxation which is bad because it is not graduated in accordance with ability to pay. The adjustments which it would cause would be of a most unusual and disturbing char-

British Consul Killed

Arab Mob Blamed Him For King Ghazi's Death

Mosul, Iraq.—G. E. A. C. Monck-Mason, British consul at Mosul, was assassinated by a mob which rushed on the consulate and burned it. Martial law was declared and order was restored four hours later. The outbreak occurred during the frenzied mourning for young King Ghazi who was killed in an automobile accident a few hours earlier.

Reports said four men were arrested after the slaying of Monck-Mason. They asserted agitators had worked up a crowd of mourners near the British consulate by declaring Ghazi had been slain by Britons. The mob then rushed the consulate and burned it.

The much-murdered Monck-Mason, 53 years old, entered the consular service in 1908 and spent most of his career in the Near East. He was at Alexandria and Salonika during the war, and acted as consul-general at the latter city in 1920. In 1929 he was made consul at Aleppo. He became consul at Mosul in October last year. Mosul is on the river Tigris about 200 miles northwest of Baghdad.

King Ghazi I. of Iraq died of a skull fracture after his automobile crashed into an electric light pole. The 27-year-old monarch was returning to the palace at Baghdad about midnight, when he lost control of the car.

Empire Statesman Dies

Prime Minister Joseph Lyons Of Australia Succumbs Of Heart Attack

Sydney, Australia.—Sir Earle Page took the oath of office as head of the Australian government, while the commonwealth mourned the death of Prime Minister Joseph Lyons, Empire statesman and economic saviour of Australia.

Falling to rally from a severe chill which sent him to hospital, the 58-year-old prime minister later suffered a series of heart attacks.

The cabinet was unchanged except for Sir Earle's stepping up from the post of deputy prime minister. But it was believed to be on a temporary basis and possibilities were expressed that a general election may be held in the near future.

Sir Earle heads the Country Party, which, with the United Australia Party, makes up the coalition government. The United Australia Party, of which Mr. Lyons was leader, was without a deputy leader in the government following the resignation recently of Robert G. Menzies, attorney-general and industries minister.

French President

Albert Lebrun Re-Elected For Second Seven-Year Term

Versailles, France.—Albert Lebrun was re-elected president of France for a second seven-year term by both houses of parliament, sitting as the national assembly, in historic Versailles palace.

Lebrun received 506 votes on the first ballot, whereas only 453 were required for his election. There were only 910 votes cast, of which six were blank.

M. Lebrun was the second president in French history to be elected for a second term. The first was Jules Grevy, re-elected in 1895.

Imports Higher

Ottawa.—The Dominion bureau of statistics reported Canada's February imports of rubber, meats, petroleum and hides and skins were higher than in February, 1938, while imports of automobiles and automobile parts, vegetable oils and soaps were lower.

DENTON MASSEY

Who believes Canada and United States would intervene in defence of liberty.

British Aircraft Engines

Have Proven Satisfactory Under Winter Flying Conditions

Ottawa. Flying tests under all kinds of winter conditions have been carried out on Bristol aircraft engines during the past three winters by the British and Canadian air forces. Hon. Ian Mackenzie, minister of defence, announced in the House of Commons in comment on a Winnipeg Free Press editorial of April 3 casting doubt on suitability of Bristol engines for Canadian winter conditions.

A report by the chief of the Canadian air staff on the results of those tests pronounced Bristol engines "entirely satisfactory" under cold weather conditions, the minister said.

The Free Press editorial had suggested Bristol engines were not as suitable to Canadian conditions as some other makes and had cited the fact the Imperial Airways Flying boat "Cavalier," which recently was forced down between Bermuda and New York, had been powered with four Bristol engines. Technical reports had suggested difficulties due to an iced carburetor.

The minister explained trouble with iced carburetors was not peculiar to Bristol engines but was a question primarily of installation.

Civil Service Rule

Outside Work Is Prohibited For Employees Receiving More Than \$1,200 A Year

Ottawa.—Full-time federal government employees receiving more than \$1,200 a year will not be permitted to engage in outside employment after May 1, except by specific authority of the treasury board, under an order-in-council adopted last March 29, and made known recently. The action was taken by the cabinet after the treasury board considered a report that "numbers of government employees of various classification were engaging in gainful occupations outside their regular hours of employment."

Specific exception to the regulation is declared for municipal or civic office, which are not to be considered as employment of gainful character.

Loan Is Authorized

Sue Totalling \$2,397,000 To Help Saskatchewan Meet Relief Costs

Ottawa.—An order-in-council tabled in parliament authorized the Dominion government to extend loans totalling \$2,397,000 to Saskatchewan to enable the province to meet its share of unemployment relief expenditures from Sept. 1, 1938, to March 1939. The loan will be secured by three per cent provincial treasury bills.

Invasion Of Albania Feared As An Attempt To Dominate Balkans

London.—British officials said they feared Italy's invasion of Albania was a first step in a new Rome-Berlin attempt to dominate the Balkans and smash Germany's Britain's projected grand alliance against aggression.

Foreign office officials said Italy had reassured Britain two days ago that she had no wish to change the status quo in Albania.

Both the Anglo-Italian gentlemen's agreement of 1937 and the Anglo-Italian agreement of 1938 pledged the parties to preservation of the status quo in the Mediterranean area.

Nevertheless, it was generally accepted that even if Premier Mussolini's Albanian back into a Roman empire after an absence of more than 2,000 years, Britain will make no military move.

The Italian embassy in London issued a statement saying Italian troops would be withdrawn from Albania "as soon as the recent disturbances are terminated," and that occupation of the country was only temporary.

The embassy denied the Italian forces had been resisted by soldiers of the regular Albanian army, and said the most slight resistance from irregulars and "no resistance whatsoever from the people," who were "cordial."

In London diplomatic circles it was believed Italy's coup was planned during the current visit to Italy of Field Marshal Goring, and that it was timed to coincide with departure

of British officials from London for the Easter holidays.

New news in official British quarters, an Italian thrust "at least politically and economic—across the Balkan peninsula to the Aegean sea is openly expected."

Such a drive would threaten the independence of Greece and Yugoslavia, and if successful, would give Italy a preponderance in the eastern Mediterranean and threaten the imperial routes of both Britain and France.

Bombing Outrages

Hundred That Operations Will Be Carried To Canada And U.S. Dublin.—A broadcast over a secret radio transmitter believed operated by the illicit Irish Republican army included the statement: "We are prepared to carry out operations ordered in Canada in 10 days."

The station, which broadcast on a wave length of 21.5 metres, gave instructions to I.R.A. units in Canada, Great Britain and the United States. Police opened an investigation immediately.

Heavy Movement Of Grain

Port Arthur.—Railway officials reported the heaviest movement of grain from the west since the seasonal rush last fall. A total of 474 cars arrived at the lakehead during a recent weekend. Stocks of wheat in store here increased 2,500,000 bushels to a total of 62,134,086 bushels compared with 16,000,000 bushels a year ago.

Formulate National Agricultural Policy To Assist Farmers

Ottawa.—Farmers of western Canada will benefit from an acreage assurance plan this year if legislation may be made to farmers of \$1 an acre on half their cultivated acreage in townships with an average yield of wheat of from 11 to 15 bushels, of \$2 an acre in townships with an average yield of six to 10 bushels and of \$2.50 an acre in townships with a yield less than five bushels.

3. The bill will declare 1939 an emergency year. Subsequent years may be declared emergency by order-in-council.

4. Acreage payments for wheat will be subject to deductions of 1-10 for every cent the average price of wheat from August to December exceeds 70 cents and when the price reaches 80 cents no payment will be made.

5. In succeeding years the government may vary the limits of the 10-cent price range.

6. In years of total crop failure farmers with less than five bushels to the acre will receive the \$2.50 payment regardless of whether it is an emergency year and regardless of price.

7. Wheat is used as a basis of determining crop yield, but payments will be made on all cultivated acreage, whether in summerfallow or other crops.

8. The township is the unit of yield, to avoid individual declarations and avoid encouraging the farming of poor land.

9. The maximum acreage on which a farmer may receive payment is 200 where the farmer has 400 acres in cultivation.

The plan will replace the present system under which the Canadian wheat board pays a fixed price (this year 80 cents a bushel for No. 1) for wheat at Fort William for this season we can at least start to abolish, however. It will operate as a central selling agency for co-operatives as the former central selling agency of the wheat pools operated.

Under the most unfavorable conditions the maximum cost to the Dominion treasury of the new system would be \$30,000,000, said Mr. Gardiner, just half the cost of the fixed price this year. With an average market price of 62 cents a bushel, the wheat board stood to lose \$48,000,000 on the wheat it bought at 80 cents and, in addition, relief for farmers who had no crop would cost \$12,000,000.

The present system was described by Mr. Gardiner as uneconomic, inequitable and tending to encourage production of wheat at expense of other grains.

Salient features of the plan are: 1. A charge of one per cent, of all grain which goes to terminators to

FRANCO'S TROOPS PARADE THROUGH FALLEN MADRID

Carrying the blue and gold flag of the rebel forces, the vanguard of General Franco's armies are shown entering Madrid, Spain, which was surrendered by Loyalist forces after a siege of more than two years. The large building seen on the right of this photograph is the Madrid postoffice. This is a radiophoto.

Age may give a certain weight to an old man's words, but continuous results are what tip the scales.

NOTES AND COMMENTS

IF ONE is not performing useful service life is apt to become boring. If you enjoy your work, then you are indeed among the more fortunate. Many look on their daily duty as something that has to be done under compulsion. True enough, we are compelled to work if we are to enjoy the comforts and pleasures of life. If you are following employment that perhaps is not to your liking, do the very best you can at it and at the same time improve yourself to take up something at which you feel you would be more useful.

WERE WE living in countries governed by dictators, perhaps there would be little choice of the occupations we should follow. You might be regimented to work in a munitions factory, or you might be told to shoulder a gun and go out and man the trenches if war came. Your food would be rationed, and you would have to like it.

SOMEONE said the most popular man among the German people was Prime Minister Chamberlain. Whether it is true or not, the fact remains that the Germanic people are as loath to go to war as are the people of Great Britain or any other country. It is the self-seeking ambition of a man such as Hitler who keeps the world in an unsettled state. Napoleon followed the same line until other powers combined to subdue him, resulting in his final submission to the British and his banishment to the lonely isle of St. Helena. Hitler may talk of guns and airplanes, and undoubtedly he could inflict great damage by sending a fleet of airplanes over London without warning.

BUT it is the spirit of the people that wins wars. Britons are still of the same frame of mind towards war as they always were, and expressed in the song years ago—

"We don't want to fight,
But by jingo, if we do,
We've got the men,
We've got the ships,
We've got the money, too!"

That is why Great Britain will depend for voluntary enlistment in national service rather than resort to conscription. But the spirit of the people is not warlike, and there is a realization among them that only false leaders would plunge them into war for the sake of satisfying the ambition of dictators. Indeed there is great need for moral re-armament among the peoples of all nations, whereby they would individually and collectively denounce leaders such as Hitler who would like to be a second Napoleon as far as conquest goes.

THERE is another aspect of the general situation which has to be considered. There is a lot of propaganda fed to the masses in radio reports blazoned forth with hair-raising exaggerated emphasis far beyond what the news may warrant. This occupation of Albania by Italy, serious though it may be for the small country, has been brought about by weaknesses of its own and the non-fulfilment of its obligations to the country which has assisted it financially in past years. When one reads of the Albanian people welcoming the Italian troops, in messages from independent sources, one is apt

to think twice before accepting all the propaganda of Albania being the martyred country that the first news despatches would convey. Propaganda is an instrument by which hatred or good-feeling can be developed.

A GOVERNMENT'S business is to govern—not to engage in various business enterprises, such as banking, insurance, etc. One has only to review the enormous deficits being piled up by Canadian National Railways to realize the futility of governments successfully carrying on competitive business enterprises, for in every case the taxpayers pay the deficits. It is therefore noted with rather alarming feelings that taxpayers will be called on still further in Alberta to pay the deficit on another hastily embarked on enterprise of the Social Credit government, namely, the operation of Treasury Branches.

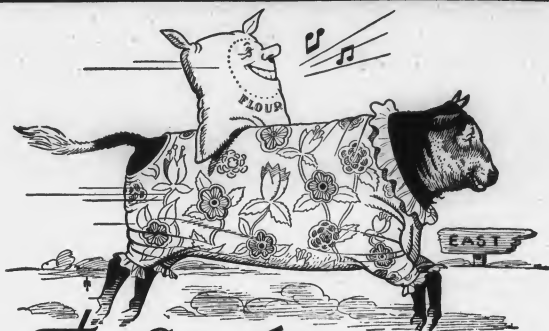

Here is a despatch from Edmonton from a reliable source indicating again that the main-spring of credit business, which is confidence, is lacking in the operation of these branches:

"Treasury branches, or 'credit houses,' are running into difficulties already; accounts are getting clogged, and many reportedly are being disputed. The government is finding the clogging so great that it had to start distributing its 'vouchers' to civil servants last month 10 days before those vouchers were due under the arrangements by which the provincial employees are forced to accept 25 per cent. of their salaries or wages in the government's paper. Merchants who agreed to line up with the scheme are becoming more and more careful about whose vouchers they accept, and how many."

SPRING cleaning is in the air, and The Journal office has been topsy-turvy this week. The artist who is doing the work is too well known to need his praises being sung by us, besides he is somewhat modest about having his name in the paper. But we will be thankful when the brushes and pails and splashes of whitewash on the floor are cleaned up and we can return to our regular routine instead of writing copy in any old corner out of the reach of the brush which has a peculiar knack of swishing off a splash every now and then.

THE annual clean-up of the winter's accumulation of rubbish has been delayed by inclement weather, but that's all the more reason why it should be done as quickly as possible. Even if Main street is not of the type that would win a prize in a beauty competition, it can be made to look a lot better by a clean-up and paint-up and lanes can be cleared of rubbish. If everyone cleans around his own premises, there would be little left for the town council to clean up. To make up for Coleman's lack of town planning, the next best thing we can do is to see that the town is kept as tidy and presentable as possible.

Detroit News: In Chicago, structural iron workers call a strike on 20 building jobs. Five hundred of the daring fellows are countless sidewalk watchers and

MR. BUSINESS MAN:

BUY PRINTED MATTER FROM COLEMAN PRINTERS — THE MEN WHO DO THE WORK IN YOUR HOME TOWN.

Remember this! When we call on you for printing orders, we are trying to secure work for local printers. When a salesman from an outside place calls, he is interested only in the commission he will get on the order. If he takes orders for printing to be done in some other place, then Coleman is that much poorer, for the chances are that the money you pay for work done by Coleman printers will come back to you several times over. We all lose when you give work to outsiders which could be done here, regardless of the few cents difference in cost.

Sports Carnival Plans Progressing

Smoothly working committees are rapidly laying the groundwork for holding the Sports Carnival in the Coleman arena on May 13 and 15.

On Wednesday and Thursday tickets were sold through the mines. The actual amount however will not be determined until later in the week. Tickets are 50 cents each or three for \$1.00. Buyers should note that their ticket has a chance on both major prizes. Should your ticket not be drawn on Saturday evening, May 13, it remains in the barrel and has a chance to be drawn on the second major prize on Monday, May 15.

The major prizes have been bought and will be on inspection at the Coleman and Pattinson's hardware stores within the next few days. At Coleman Hardware will be seen the beautiful 8-piece Chesterfield suite consisting of large chair, couch, footstool, two tables, reading lamp and Asminster rug. At Pattinson's Hardware will be seen the handsome bedroom suite. It consists of bed, spring, and spring-filled mattress, which is known as the Simmons Ostermoor unit, dresser, vanity, dresser, cheffonier, stool and bed-lamp.

Three popular high school girls have been chosen queens of each of the three sports organizations: Winnifred Mitchell is baseball queen, Ruth McLeod is football queen and Irma McLeod is curling queen. These young ladies will vie with each other for the honor of being crowned queen of the carnival, with the accompanying award of a beautiful 15-jewel Bulova watch, which will be on display in Chalmers' Jewelry Store next week. The runner-ups will be awarded substantial prizes. A Canadian champion is expected to be engaged to supply the latest music at the Jitney dance.

On Sunday at 11 a.m. at the council chamber all persons interested in baseball, football and curling will gather to hear how the carnival committee is progressing. Any person who has not yet affiliated with the above sports organizations and who would like to lend a helping hand is cordially invited to attend.

Coleman Miners' hospital staff thank the officers and members of the Junior Red Cross of Cameron school for their gifts of flowers and eggs to the hospital patients on Easter.

HOCKEY LEAGUE MEETING AT CALGARY ON SUNDAY

Provincial hockey moguls will congregate at Calgary on Sunday, April 16, to discuss the next season and make plans for 1939-40.

The local committee are having a meeting tonight to discuss various matters which they think should be brought before the league body. A delegate to attend the meeting will also be chosen.

It is probable the annual meeting of the Canadian hockey club will be held next Friday evening, when election of officers for next season will take place. Further announcement regarding this meeting will be carried in next week's Journal.

AVERAGE CANADIAN USES THIRTY YARDS COTTON GOODS YEARLY

We use in Canada about 330 million yards of cotton goods every year, or roughly, 80 yards per person. This sounds like a lot if one thinks only of cotton clothes and household articles such as sheets, towels, etc. But we use cotton goods which we do not see because they are disguised as oil-cloths, or hidden in furniture, or in rubber boots, or in hundreds of other articles.

Out of the 30 yards annually used by the average Canadian, 9 yards are now brought into Canada from England, the United States, Japan and other great cotton manufacturing countries. The remaining 21 yards are made in Canada.

It is the 21 yards made here which provide employment for 21,000 Canadians who work in the 42 mills scattered throughout the Maritimes, Quebec and Ontario, mainly in the smaller centres of population. These workers have their families, they support the local business community, and make a market for farm products from all over the country. And they work in part with materials purchased from other Canadian industries—employing other thousands of Canadians. A significant portion of the employment on the Dominion's railways is engaged in hauling the quarter of a million tons of materials annually into cotton mills, in addition to their outgoing freight.

FELIX BRENNAN RELATES HUMOROUS SQUIBS ON ENROPEAN TOUR

Felix Brennan, better known as "Mickey," related many humorous incidents of his European hockey tour to several friends on Sunday evening.

With a number of players on the team whose parents are of foreign birth, it was to be expected that the Smoke Eaters would have very little trouble with the various languages which they would have to contend with. Such was not the case, however, as Joe Benoit, a Frenchman, could not understand the French language, and Dick Kowack, a Slav, could not understand that language as it is spoken there.

The waiters, according to Mickey, "yessed" a fellow to death. It seems that they shook their heads in the negative while continuing to say "yes" to everything that was said. Mal Snowdon, defenceman, couldn't resist the temptation while ordering a meal to the accompaniment of the waiter's "yesses" to ask "Do you wanna rassel?" to which the poor waiter continued to say "yes" entirely unaware of being "ribbed".

Mickey also related having seen Mr. and Mrs. George Read, former Colemanites, who attended the game at Dundee. Numerous friends of Coleman people either saw Mickey personally or phoned him while he was touring Scotland.

He has probably forty or fifty medals and tie pins collected at the various cities they played at. The world's championship medal was really a disappointment to the writer, as it is neither gold nor silver, nor has even the winner's name been engraved on it. In French there is written "World's Championship, 1935," with the replica of a hockey goalkeeper.

Musical Festival Season Tickets

To give as many as possible an opportunity to attend the musical festival, transferable season tickets good for the entire nine sessions of the three days will be sold at \$2.00 each. Freda Antrobus and Peter Bakaj will sell them in Coleman, or they may be obtained from The Journal office or from any member of the committee.

Mr. Cousins is asked to send in his entries as early as possible to Mrs. Farmer, secretary.

Skunks!

There are still men who would qualify as the meanest people on earth. Here are some of the petty thefts: From Pattinson's hardware glasses stolen from sets on display; from Empire hotel even the wash room was robbed of a mirror and a mat. If the toilet hadn't been fastened down, possibly the thief would have sneaked out of the back door with that.

It was Lincoln, wasn't it, who gave us that capital about the time some of the people all of the time and all of the people some of the time? Times have changed. Some people, today, can't be fooled at all.

Local News

Joe Plante has been confined to his home since Saturday with the flu.

A. W. Dingle, acting superintendent of postal service, of Calgary, spent Tuesday in town at the local office.

Mr. and Mrs. A. Lonsbury, of Trail, arrived in Coleman on Thursday morning, having been called here owing to the serious illness of Mr. Lonsbury's father.

Mrs. Hoyle and daughters are spending the week at the home of her married daughter, Mrs. Barrows, at Milk River. Mr. Hoyle spent the week in Edmonton on business.

Electrical illuminated clocks for window displays are the latest in town. Pattinson's hardware has one which sets off to advantage a display of a well-known brand of paints, and Coleman Cafe also has one to enlighten the weary traveller of the time and to bid him welcome to this ever popular cafe. The Fashion Plate also has one.

The Week in Edmonton

(By Dan Campbell)

Prorogation of the eighth session of the eighth legislature came at 10.40 p.m. on Monday, April 9, when His Honour Lieut.-Governor J. C. Bowen closed regular proceedings in traditional manner. With the bills which he had already given royal assent. His Honour now assented to the remainder, which brought the total to 102.

The session opened Thursday, February 9, and it lasted just short of eight weeks. The House sat for 37 working days and in all 105 bills were introduced. Three bills, each introduced by private members, were killed in committee. They were the Hairdressers' Bill, The Dental Mechanics' Act, and the Bill to Amend and Consolidate the Dental Act.

The latter drew some stormy comments on Monday and the debate was so vigorous at times that prorogation seemed about to be held off for another day. Chief objector was J. H. Unwin, Edson, who attacked a number of clauses as being undemocratic. Just before recess he moved that the chairman leave the chair, which would have meant the virtual killing of the bill at that stage. He was not successful that time, but later the chairman was instructed to do just that, and the bill died.

At the post-session caucus among Social Credit members, they decided to accept 50 per cent of their sessional indemnities in treasury vouchers. This will mean an excess of \$50,000 circulating in that form. Total appropriation for legislative purposes ran to approximately \$129,000. M.L.A.'s receive an indemnity of \$2,000. Cabinet ministers and the chairman of the Social Credit Board receive indemnities of \$1,500.

There are additional allowances in addition to these. Mr. Speaker is allowed an additional \$1,500 and the Deputy Speaker \$750. \$2,400 is allowed to the leaders of opposition groups.

Mr. Newton, district representative of the Scott Fruit Co., has taken up residence in West Blairmore, and moved his family and household effects from Coleman last week. Scott Fruit Co.'s warehouse is located in the basement of the F. M. Thompson Co.'s premises.—Blairmore Enterprise.

Col. R. F. Barnes was a visitor to Macleod on Tuesday on professional business.

N. A. Link, assistant superintendent, C.P.R., Macleod, was a business visitor here on Monday.

Mrs. Peter Brown is visiting her parents at Medicine Hat for a few days.

Mr. and Mrs. O. Smith, accompanied by the Misses Mabel Gillespie and Cherry Smith and Mr. Lloyd Sanderson, motored to Lethbridge on Saturday.

E. L. Goosy was a recent visitor to Calgary, visiting some of his family who are living there.

Miss Mae Bell won the luncheon cloth which was drawn for at a tea by St. Alban's Guild on March 18 at the home of Mrs. H. T. Halliwell.

The Cubs under Mrs. Frank H. Graham and Mrs. Burpee Steeves had an enjoyable hike on Saturday afternoon, even though the weather was very cool.

Mr. "Duke" Scodellaro, of Trail Smoke Eaters' fame, was renewing old acquaintances in town before continuing his journey to Trail after a five months' hockey tour of Europe.

Mrs. J. Jemison, formerly Ismay Hadley, daughter of Mr. and Mrs. James Hadley of West Coleman, was recently heard over a broadcast from a Calgary station in several songs, and she is taking a prominent part in one of the church choirs of the city.

Mr. and Mrs. A. R. Wyman of the power plant at Crow's Nest Lake called at The Journal office last Thursday to renew their subscription, and the editor had an opportunity of seeing the "robin" that had been around there all winter. The "Robin" was a bonny six-months-old baby.

If it is advertised in The Journal it must be O.K.

METROPOLITAN LIFE CONTINUES PROGRESS IN 1938

Half a Billion Dollars Paid Policyholders for Seventh Consecutive Year.

OTTAWA, April 8rd. — Payments to Metropolitan Life policyholders and beneficiaries during 1938 exceeded half a billion dollars for the seventh consecutive year, according to the 72nd annual report of the company released today. The report also shows that dividends paid to policyholders during the past year amounted to \$108,947,384, and that a still larger sum — \$118,042,832 — has been set aside for dividends payable in 1939. Nearly one-half of this amount, or \$57,765,510, will be paid to Industrial policyholders; \$57,623,174 will be paid on Ordinary policies and \$2,825,148 on Accident and Health policies. Included in the amount set aside for dividends payable to Industrial policyholders in 1939 is an item of \$3,200,000 which will be applied to further the company's program, in effect for several years, of increasing the benefits under old Industrial policies. The 1938 dividends, when added to bonuses and dividends previously paid to policyholders, bring the total up to \$1,438,485,045. The fact that the Metropolitan is a mutual company, operated solely for the benefit of its 29 million policyholders, is commented upon in the report which also shows that during the year 1938 a total of more than three-quarters of a billion dollars was paid to policyholders or added to funds held for their benefit.

HARRY D. WRIGHT, Second Vice-President and Manager for Canada, Metropolitan Life Insurance Company, who reports increased investments in Canada for the benefit of policyholders. Commenting upon the Canadian business of the Metropolitan, Second Vice-President H. D. Wright, Manager for Canada, stated that the total amount of life insurance in force had shown a satisfactory increase during the year. "This steady progress, year after year, indicates the continued confidence of the people of this country in life insurance," he said. He pointed out that Metropolitan Investments in Canada including Dominion, provincial and municipal bonds continue to increase and now total \$207,781,040. Commenting upon these investments, Mr. Wright pointed out that since the company had commenced business in Canada in 1872, the total amount paid by the company to Canadians, plus the amount now invested here for their benefit, exceeded the total premiums collected in Canada by \$138,500,000. Turning to the Health and Welfare activities in Canada undertaken on behalf of policyholders and in the interests of public health generally, Mr. Wright said that the Metropolitan had participated in 91 different health campaigns during the year; had distributed nearly 3,800,000 pieces of health literature; and through the operation of its nursing service had made 385,674 visits to sick policyholders without additional charge to them.

Referring to the company's total business in Canada and the United States, the year's report shows that the Metropolitan ended 1938 with a new high total of life insurance in force, the amount of such protection being \$22,612,408,904, of which 91% or \$11,556,261,380 was owned by Ordinary policyholders; 8% or \$7,530,376,550 by Industrial policyholders; and 1% or \$3,505,825,700 by Group policyholders. There was also in force Accident and Health insurance carrying a principal sum benefit of \$1,449,927,200 and weekly indemnity of \$18,500,000. More than \$1,800,000,000 of additional life insurance protection was provided by the 3,380,151 new policies issued during the year.

The assets of the Metropolitan increased by the sum of \$228,170,540 which brought the total of the funds held by the company for the benefit of policyholders and beneficiaries to \$4,642,900,410 at the end of the year. The report comments that the assets include more than 100,000 carefully selected, diversified investments. The surplus and general voluntary reserves are now \$315,301,071. This serves as a margin of safety — a cushion against contingencies which cannot be foreseen.

Metropolitan reports to its policyholders—

HIGHLIGHTS OF 1938

The Metropolitan Life Insurance Company is a mutual company. It is operated solely for the benefit of its 29 million policyholders, whose life insurance with this Company totalled over \$22,612,000,000 at the end of the past year.

In 1938, more than \$566,300,000 was paid to policyholders and beneficiaries, and \$176,000,000 was added to statutory reserves for payment of obligations which will accrue in future years under present policies. Dividends paid in 1938 amounted to \$103,940,000. A still larger sum—\$118,042,000—has been set aside for dividend payments in 1939.

Metropolitan has paid, since 1927, more than \$5,000,000,000 to policyholders and beneficiaries.

More than \$1,800,000,000 of life insurance protection was provided by the 3,330,151 new policies issued during the past year.

Assets held for the benefit of policyholders and beneficiaries—which include more than 100,000 carefully selected, diversified investments—amount to more than \$4,900,000,000.

As part of its welfare program in 1938, Metropolitan distributed 68 million health booklets—an average of 1 every half-second—and published monthly health-education advertisements in magazines whose combined circulation for the year was over 300 million copies.

Metropolitan welcomes every opportunity to provide its policyholders with information that will enable them to have a clearer understanding of how the Company operates. To help accomplish this, the Company is publishing a series of educational advertisements in magazines, and seeks in various other ways to keep its policyholders informed. A booklet, soon to be available, contains a detailed account of Metropolitan's progress in 1938. We shall be glad to send you a copy on request.

Metropolitan's Business Report

for the year ending December 31, 1938

ASSETS		LIABILITIES	
Government Securities	\$933,919,346.89	Statutory Policy Reserves	\$4,317,868,342.00

Industrial	260,990,746.69
Group Life, Health, and Annuities	60,703,229.57
Personal Accident and Health	2,715,671.05
TOTAL	\$566,356,290.43
Number of new life policies issued	3,330,151

In Canada—

These highlights of the Company's business in the Dominion (having been included in the above statements) will be of particular interest to Metropolitan's Canadian policyholders and their beneficiaries.

The total amount of Metropolitan life insurance in force in Canada at the end of the year was \$1,143,867,130 of which \$623,556,427 was held by Ordinary policyholders; \$420,560,627 by Industrial policyholders and \$99,750,076 by Group policyholders.

The total number of nursing visits made without additional cost to our Canadian policyholders during 1938 was 385,674.

Payments to Metropolitan policyholders and beneficiaries in Canada during 1938 were \$30,437,844.

Metropolitan health publications distributed in Canada during 1938 totalled 3,793,002.

CANADIAN HEAD OFFICE
OTTAWA
HARRY D. WRIGHT
Second Vice-President and Manager for Canada.

Metropolitan investments in Canada as of December 31st, 1938 totalled \$267,781,039.82.

Dominion Government Bonds	\$ 65,310,453.73
Provincial and Municipal Bonds	\$104,610,612.32
All other investments	\$ 97,859,973.77

The total amount the Metropolitan has paid to Canadians since it entered Canada, plus its present investments in Canada, exceeds the total of all premiums received from Canadians by more than \$138,500,000.

METROPOLITAN LIFE INSURANCE COMPANY

"The Family Clothier" Coleman

Local News

Mr. Douglas Bevan is spending the Easter holidays with his parents, Rev. and Mrs. H. J. Bevan.

Mr. Robert Phillip, representative of the Corticelli Co., called on local merchants this week.

R. A. Montalbetti, of the Modern Electric, was a business visitor to Calgary this week.

Miss Gwen Dunlop, of the Garbutt Business College staff, was home for the Easter holidays.

Mr. and Mrs. R. Hulbert, Mr. and Mrs. R. Parry and Mr. R. Stenburt motored to Lethbridge on Saturday.

Twelve ladies of one of the bridge clubs wound up the season by having a chicken dinner at the Grand Union hotel.

Oliver Barringham, confined to his bed with double pneumonia, was slightly improved on Wednesday morning.

Miss Penelope McDonald, of Cardston hospital staff, spent Easter with her parents, Mr. and Mrs. J. A. McDonald.

Mrs. Wm. Pryde, accompanied by Mr. and Mrs. Robert Pryde and son, of Hillcrest, motored to Lethbridge on Saturday.

Miss Winnifred McIntyre, student of Pincher Creek convent, is spending the Easter holidays with her parents, Mr. and Mrs. J. J. McIntyre.

Students visiting at their homes during the Easter holidays are the Misses Norma Easton, Ruth Sudworth, Rita Ash, Mary McIntyre and Virginia Janostak and Mr. Owen Jones.

Miss Nellie Pruett, of the Grand Union hotel, has gone to Cochrane, where her brother is proprietor of the hotel. She expects to remain there for the present. Mary Rypien, of the hotel staff, will take a rest and her place will be taken by Lillian Mustard.

Snow to a depth of from six to eight inches fell on Sunday and early Monday morning. Easter Sunday was decidedly chilly in the Pass towns, while Calgary reported a high temperature during the day of 53 degrees.

Mr. E. D. Battum, municipal auditor, of Calgary, was here last week on one of his regular auditing visits to the town office. He also is engaged in an audit of the hospital board records covering several years.

Mr. and Mrs. Horace Allan and Mr. and Mrs. J. O. C. McDonald motored to Calgary on Good Friday, the Allans continuing to Drumheller for Easter. Mr. and Mrs. McDonald returned by bus on Sunday, which was delayed four hours by two breakdowns.

It's wonderful how "valuable" the paper becomes when someone sends in a long "ting" of free publicity. One party sent in three pages of typewritten copy without even giving his name.

Important!

Lessen the fire hazard by having your chimney and furnace pipes cleaned by a competent man, with years of experience. Phone orders to Telephone 209, or notify Rushton's store.—Robt. Gee, Coleman.

Where It Costs Less To Be Better Dressed

Friday—Prayer meeting at 7.30 p.m. Miss McEwen will leave this week-end for Vancouver after having assisted Miss Mooshian for two months. Miss Dorothy Thomson, daughter of Rev. E. Thomson, president of the Northern Bible College, is expected on Saturday to take Miss McEwen's place. This will be her first charge since graduating from college. She plays the piano—accordion and the harp, and sung in the college ladies' quartet.

Miss Mooshian and Miss Thomson will work here until June, when the new pastor and wife will arrive from Nampa, Idaho.

Good quality bond paper, white, 8 1/2 x 11 inches, 500 sheets in cardboard box for \$1.35, at The Journal.

CUSTOMERS COMPLAIN

Owing to retailers not informing the people that stores would be closed on Easter Monday, there was considerable annoyance and inconvenience caused to would-be shoppers who were short on house-hold supplies.

The Journal enquired prior to publication last week if stores would close, but no definite answer was received. There should be definite notice given to the public prior to holidays and The Journal is only too willing to give publicity to such information.

The Churches

ST. ALBAN'S CHURCH

Rev. J. R. Hague, A.Th., Incumbent. First Sunday after Easter—2 p.m., Sunday school; 7 p.m., Evensong and sermon.

Read Acts 9:1-9—They ask, "Who art thou, Lord?" And Jesus says: "He who has seen Me has seen the Father." Jesus never says: "I am the Father-Creator;" but "I am come to show you the Father—you see in Me a perfect expression of the Father-Creator." That is the mission of Christ's life; that is the wonderful secret that He holds—a real and living way for a human soul, each one of us, to find and know His Maker.

CHURCH OF THE NAZARENE

Changes Pending in Ministry—Miss Mooshian to Leave Here in June Sunday, April 16—Sunday school 11 a.m.; morning worship at noon; evangelistic service at 7.30 p.m., with special music.

Tuesday at 7.30 p.m.—Special evangelistic service, with Rev. Trevor Morgan and party, who are on their way to Vancouver. Mr. Morgan was pastor at the Nazarene church at Hartmann. Mrs. Morgan is an exceptionally fine musician.

Willing to Serve

Master (engaging new maid): "When I want you, Anna, I will ring three times."

Maid: "But, sir, I would be willing to come at the second ring."

"Without courage there cannot be truth, and without truth there can be no other virtue."—Sir Walter Scott.

Los Angeles Times: A woman must have plenty of pluck to keep her eyebrows in shape.

Edmonton Journal: "Buttonless shirts a spring novelty" says a fashion note. No novelty to many a man.

COUNTER CHECK BOOKS of best quality at factory prices, including taxes and freight charges, laid down cost to customer. Journal office.
